About Me

Frontend developer / Staff UX Engineer with 8 years of experience building scalable, high-performance web applications using React and Angular. Skilled in component-based architecture, responsive design, and REST API integration. Experienced in delivering international projects and optimizing development workflows using modern tools and AI- assisted development.

Skills & Technologies

- Frontend Development: React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3
- State Management: Redux, Context API
- UI Frameworks & Styling: Material UI (MUI), Tailwind CSS, Bootstrap, Sass/SCSS, Styled Components, Theme UI
- API Integration: REST APIs, Axios, Async Data Handling
- Architecture & Performance: Component-Based Architecture, Reusable UI Development, Responsive Design, Performance Optimization.
- CMS & WordPress: Custom WordPress Development using ACF & Pods
- Development Tools: Git, GitLab, Jira, Zen hub, Gulp, Grunt
- AI tools: GitHub Copilot, Claude & cursor.
- Design Collaboration: Figma, Zeplin, Adobe Photoshop, PSD/Figma to HTML Conversion
- Development Practices: Agile/Scrum Methodologies, Cross-Browser Compatibility
- Additional Skills: Problem Solving, Team Collaboration, Code Review, Mentoring Junior Developers.

Work Experience

March 2020 - present

Staff UX Engineer / Frontend Engineer — 10Pearls

Led the design and development of scalable frontend applications using React.js, collaborating with cross-functional teams to deliver high-performance and user-centric digital solutions for international clients.

- Led frontend development using React.js, building scalable, high-performance, and responsive web applications for international clients.
- Developed reusable and maintainable component-based architecture using React, improving development speed and consistency across projects.
- Collaborated with UX designers, backend engineers, and product stakeholders to deliver modern, user-centric digital experiences.
- Integrated RESTful APIs and handled asynchronous data management using Axios and modern React patterns.
- Implemented state management solutions using Redux and Context API for scalable application architecture.
- Worked on frontend performance optimization, code splitting, lazy loading, and rendering improvements to enhance user experience.
- Participated in requirement analysis, technical planning, and solution design for enterprise-level applications.
- Ensured code quality through Git workflows, peer reviews, reusable coding standards, and best engineering practices.

- Mentored junior developers and promoted frontend best practices, reusable UI patterns, and clean code principles.
- Worked on multiple international projects including React and Angular-based enterprise applications in healthcare, finance, insurance, and digital platforms.
- Built mobile-first and cross-browser compatible interfaces using modern frontend technologies and responsive design techniques.
- Collaborated in Agile/Scrum environments, participating in sprint planning, estimation, and daily standups.
- Assisted in improving frontend workflows, scalability, maintainability, and overall engineering productivity.

Frontend Developer — Creative Chaos

Karachi, Pakistan | August 2018 – March 2020

- Worked on custom UI development for enterprise and international clients including ABL Asset Management (ABL AMC), NBP Funds, Adamjee Life Insurance, Litterati, and other in-house projects.
- Developed responsive and cross-browser compatible web applications using HTML5, CSS3, JavaScript, jQuery, and Bootstrap.
- Built reusable and maintainable frontend components based on modern UI/UX practices and responsive design principles.
- Integrated custom frontends with WordPress CMS using Advanced Custom Fields (ACF) and Pods.
- Developed and customized WordPress themes according to business and client requirements.
- Collaborated closely with designers, developers, and project managers in an Agile/Scrum environment to deliver high-quality solutions.
- Converted PSD/Figma-based UI designs into functional and pixel-perfect web interfaces.
- Created interactive prototypes and implemented UI enhancements across multiple platforms and devices.
- Participated in requirement analysis, task estimation, feature planning, and implementation discussions with project leads.
- Maintained and updated frontend and backend functionality for existing websites and client platforms.
- Worked on custom dashboards and dynamic UI features for client-facing web applications.
- Performed website maintenance, bug fixing, performance improvements, and production support activities.
- Utilized Git-based workflows for version control and collaborated with teams through Jira and project management tools.

September 2016 – November 2016

Junior Developer

JoChaho.pk

Karachi,

Worked on their live projects, and helped them in the development and design.

- Developing, maintaining, and updating existing websites
- Creating/Modifying themes and plugins for WordPress
- Dealing with troubleshooting and fixing bugs.

Tools & Applications

- Development Tools: Visual Studio Code (VS Code), Sublime Text, Notepad++
- Version Control & Collaboration: Git, GitLab, Jira, Zenhub
- Frontend & UI Tools: Chrome DevTools, Figma, Zeplin, Adobe Photoshop
- API & Testing Tools: Postman, SoapUI
- Database Tools: MySQL, Microsoft SQL Server, MongoDB
- Build & Automation Tools: Gulp, Grunt, npm
- CMS & Development Platforms: WordPress, ACF, Pods

- Cloud & DevOps Exposure: AWS, CI/CD Workflows
- Productivity Tools: Microsoft Office Suite

Live Projects

- [ABLAMC](#)
- [NBP Funds](#)
- [Adamjee Life insurance](#)
- [Litterati](#)

Education

Bachelor's, Computer Science	Graduated, December 2017
Sir Syed University of Engineering and Technology.	CGPA 3.0
Karachi, Pakistan	First Division
Intermediate, pre-engineering	2013
Govt Jinnah science college Nazimabad	B-Grade
Karachi, Pakistan	
Matriculation	2010
La Canadiana Children's Academy	A Grade
Karachi, Pakistan	

Achievements and Certifications

- First position in FYP
- Runner Up in Ideas and Modelling for the best project idea
- First position in I.T Fair for the best project
- Certificate for giving a course on Web Designing
- Certificate for volunteering in Pasha ICT Awards 2014
- Certificate for volunteering World of Networking seminar
- Got the Second position in theatre (Stage Drama) all over Karachi in My Karachi event.
- Got Certificate of Achievement for Active Participation in Creative Chaos.
- Got code quality award at 10pearls.
- Got Team of the quarter award at 10Pearls.
